## **DETAILED ACTION**

### ***Allowable Subject Matter***

Claims 1-23 allowed over prior art.

The following is an examiner's statement of reasons for allowance:

Regarding claims 1-21, none of the prior art teaches an imaging tube having a cathode post residing at least partially within a vacuum vessel, the cathode post in conductive proximity with an electromagnetic shield and preventing bending of electrostatic field lines within the imaging tube as claimed in independent claims 1 and 20.

Regarding claims 22-23, none of the prior art teaches an imaging tube having a cathode post residing at least partially within a vacuum vessel, the cathode post extending substantially within an insulator, contacting an electromagnetic shield, and preventing bending of electrostatic field lines within the imaging tube as claimed in independent claim 22.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Tang (US 6798865B2), Tang et al. (US 2004/0096037A1), Heiting et al. (US 5136625), Maska et al. (US 6570962B1), True et al. (US 6236713B1) teaches an x-ray tubes but fails to teach the allowable subject matters above.
